

Google Classroom/Chromebook Expectations

- We are happy to provide chrome books for remote learning. We ask that school chrome books only be used to complete school assignments.
- The chrome books are set to not allow them to be used between the hours of 12:00AM-6:00AM
- Please help us by setting an expectation that your child is sitting up (preferably at a table or desk) and paying attention during class.
- Students need to be in their class google meet at the designated time. The teachers will email parents if students are not in class and not on the absence list.
- Cameras must remain on during class unless the teacher requests they be turned off.
- There may be times when eating/drinking during class will not be permitted due to it causing a distraction.

We appreciate all you are doing to support your child's remote learning experience, and to support the school in this endeavor.
